# WHY CHOOSE A TEXAS STATE BANK CHARTER?

## **Regulatory Accessibility and Responsiveness**

All applications are decided by the Commissioner, as well as most administrative actions. It is generally much easier for Texas bankers to establish a face-to-face working relationship with department leadership in Austin rather than with a federal regulator in Washington D. C.

## **Parity**

Article XVI, Section 16(c) of the Constitution of The State of Texas provides that a Texas chartered state bank has the same rights and privileges that are or may be granted to national banks of the United States domiciled in this State. Section 32.010 of the Texas Finance Code additionally contains a “super parity” provision which is a framework for a state bank

chartered in Texas, upon application, to conduct any of the activities allowed by any other insured state or federally-insured financial institution in the nation.

## **Modern Corporate Governance**

Texas has some of the most modern corporate governance statutes thus providing increased flexibility.

## **Lower Costs**

The assessments charged to state banks are less than that charged national banks of comparable size. The Texas

Department of Banking continually monitors expenditures and assessments and reduces assessments when fiscally possible.
